

What Are The Top 4 Smartphones of 2015?

👁 12 ✓ 0 ★ 1

Chapter 1 by Akash Gupta

The tech freaks and Gizmo gurus keep on looking for the premium devices with stylish design and amazing specs. Last year was an amazing one for those smart handheld device hunters, as the companies, like Google, Motorola, Samsung, Apple, OnePlus, Sony, LG, Huawei, HTC and BlackBerry came up with the best devices. Where in one side, the international smartphone manufacturers have focused on adding more sensors and delivering more app supports, the devices have become more stylish and edgy. Latest smartphones like Motorola Moto X Pure Edition, Apple iPhone 6S, Google Nexus 6P, OnePlus 2, Samsung Galaxy Note 5, LG V10, Sony Xperia Z5, HTC One M9+ and much more came across the market. Amongst the large number of premium devices, the four top most devices are –
Google Nexus 6P:

Though this popular tech hub couldn't make out a mark in 2014, but banged the floor last year with its premium smartphone – Google Nexus 6P. The nexus 6P device is made by Huawei and sports a 5.7 inch AMOLED WQHD display, protected by Corning Gorilla Glass 4. With the resolution of 2560 x 1440 p, this smartphone provides great visual clarity. The best part of this device is that it features Oleophobic coating, which helps in resisting fingerprints and smudges. This excellent smartphone is backed by Android Marshmallow v 6.0, which makes it smart and fast from the beginning. It has a 12.3MP primary camera, which records 4K videos and includes autofocus. The front camera is 8MP, which captures HD videos. This device is powered by 2.0 GHz Qualcomm Snapdragon Octa Core 810 processor and 3GB RAM for the fast and smooth experience. It is also available with the storage options of 32GB, 64GB and 128GB in different budgets. Comes with a 3450mAh battery, this device gets an entire day power backup.

Motorola Moto X Pure Edition. After Moto X, Moto X Pure Edition took its position in the

market. Comes with the basic build of its predecessor, it features a qHD display of 5.7 inches with 1440p resolution. It features Android 6.0 Marshmallow, the latest version of this popular operating system. Unlike its predecessors, it also has a powerful CPU of 1.8 GHz, a GPU of Adreno 418, 3GB Ram and much more. It is offering 16GB, 64GB and 32GB storage space also. Along with that, the facility of memory expansion up to 128GB is available. With a 21MP primary and 5MP front camera it provides excellent imagery experience with proper clarity, brightness and light balance. You can also avail RG, 3G or 4G LTE network support in this smartphone. With a 3000mAh battery, Moto X Pure Edition provides 24 hours long power backup.

Apple iPhone 6S

After the grand success of iPhone 6 and 6 Plus, the Cupertino tech hub launched iPhone 6S in September 2015 with great specs and looks, unlike its predecessors. Available in Silver, Space Grey, Gold and Rose Gold, this amazing device features slick and sharp look with a 4.7 inch Retina HD display with 3D view. This device features A9 chip with 64-bit architecture, Embedded M9 motion coprocessor, A9 chip with 64-bit architecture GPU, 2GB RAM, 12MP primary and 5MP front camera. Buyers will get 16GB, 64GB and 128GB inbuilt memory option in this device. Along with a lot of efficient app support, this device is backed by excellent sensors like Barometer, Accelerometer, Three-axis gyro, Proximity sensor and more. Comes with a built-in Lithium-ion battery, it gets the power backup for complete 10days on full charge.

Samsung Galaxy Note 5

Amongst all the elegant and luxurious smartphones, Samsung's galaxy Note line up has always performed the best. Samsung Galaxy Note 5 is the newest device pf this series, which was unveiled in August, last year. Available with 2G, 3G or 4G network support, this device is running Android Lollipop 5.1 with TouchWiz user interface. The 5.7 inch qHD AMOLED display of this device gets the support of Corning Gorilla glass and ensure maximum resistance of breakage, dents and damages. Samsung Galaxy Note 5 is equally powerful with Exynos 7420 64-bit, Octa core (2.1GHz Quad + 1.5GHz Quad), 14 nm process, 4 GB RAM, 16 Megapixel main camera and 5 Megapixel front camera. This device also offers 32GB and 64GB inbuilt
